-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Claim Rejections - 35 USC § 112

1. Claims 4-5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is unclear and indefinite whether "an area having no color filter" (1st occurrence, line 9 of claim 4) is the same or different from "an area having no color filter" (2nd occurrence, line 10). In accordance with the specification and the drawings, it appears that these are two different areas. For examination purposes, the Examiner interpreted the 1st occurrence as "an area having no color filter" and the 2nd occurrence as --an additional area having no color filter--.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 7-11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Shirota et al (US 5948576, IDS).

Shirota discloses liquid crystal display comprising: a first electrode; a second electrode opposing the first electrode; a plurality of dots formed in areas at overlapping portions of the first electrode and the second electrode; and a plurality of color filters (e.g., 17), a color filter being arranged to correspond to each of the plurality of dots, the color filter continuously extending

Art Unit: 2871

beyond the area of each of the plurality of dots (see at least Figures 1-4).

Shirota discloses the display comprising individual dots of the plurality of dots being associated with different color filters which display different colors and the different color filters associated with individual dots not overlapping (see at least Figures 1-4).

Shirota discloses the display comprising the different color filters associated with individual dots contacting one another in an area extending beyond an area of a dot (see at least Figures 1-4).

Shirota discloses the display comprising the different color filters associated with individual dots being arranged so as to be separated from one another (see at least Figures 1-4).

Allowable Subject Matter

3. Claims 1-3 and 6 are allowed.

See reasons as set forth in the previous response.

Conclusion

4. Applicant's submission of an information disclosure statement under 37 CFR 1.97(c) with the fee set forth in 37 CFR 1.17(p) on 01/26/06 prompted the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 609.04(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO**

Art Unit: 2871

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
